

Information sheet for the course Fundamentals of Research II.

University: Alexander Dubček University of Trenčín																									
Faculty: Faculty of Health Care																									
Course unit code: ZakVysk2/d	Course unit title: Fundamentals of Research II.																								
Type of course unit: compulsory																									
Planned types, learning activities and teaching methods:																									
Seminar: 1 hour weekly, 13 hours per semester of study; full-time;																									
Supervised practical output: 2 hours weekly, 26 hours per semester of study; full-time;																									
Number of credits: 3																									
Recommended semester: 4 th semester in the 2 nd year (full-time)																									
Degree of study: I (bachelor)																									
Course prerequisites: Fundamentals of Research I.																									
Assessment methods:

35 - 0 points	FX																								
Learning outcomes of the course unit:																									
<ol style="list-style-type: none"> 1. To formulate research problems, research objectives, to establish the criteria for the selection of the research sample, drawn up a plan and organization of research. 2. To realize the empirical research phase. 3. To analyze the results of research. 4. To interpret research results in tables and figures. 5. To use scientific literature. 																									

Course contents:

1. *The choice of research topics, analysis concepts, literary research method.*
2. *Determination of research problems.*
3. *Research objectives, establish criteria for the choice of the survey sample.*
4. *The plan of research.*
5. *The draft questionnaire.*
6. *Interview draft structure.*
7. *Observation draft inventory.*
8. *An experiment design project.*
9. *Case Study.*
10. *The analysis of the results.*
11. *The use of descriptive statistics in research.*
12. *The interpretation of research results.*
13. *Publication and presentation of research results.*
